Boosting your experience through secondment opportunities

To provide service excellence to our government clients, we need to fully understand their needs, their culture and the context in which they operate every day. We do this in a number of ways, one of which is embedding our lawyers with the client directly in their working environment. And that's why we encourage you to experience a secondment—one, a couple or even many. The choice is yours to make. Secondments are a big part of how we work with government and is one way we seek to maximise the value we add.

Going on a secondment gives you the opportunity to spread your wings, create lasting relationships and broaden and deepen your expertise in different areas of law. You'll get all the support you need to set you up for success and to ensure your secondment is one of the highlights of your career. Did we mention it can provide a great boost to your career progression, too?
